Features

- 17" high brightness (380 nits) SXGA TFT LCD
- Fanless operation with LV Intel® Core™2 Duo or ULV Intel® Celeron® M processor (MPC170-831-FL)
- Fan operation with socket M Intel® Core™2 Duo processor (MPC170-831)
- UL60601-1/EN60601-1, CE & FCC class B certified
- Water/dust-proof design (front bezel: IP65, full enclosure: IPX1) (MPC170-831-FL only)
- Dual 10/100/1000Mbps Ethernet ports
- Built-in combo drive
- 1 PCI expansion slot
- Built-in 1.3 mega pixels camera

MPC170-831-FL (Fanless version)

Introduction

The MPC170-831-FL is a 17-inch slim TFT fanless medical grade panel computer, which is well-suited for applications like medical image processing and medical measuring instrument. Especially designed for the medical environment, it adopts IPX1 waterproof design which protects the entire system from outside liquid, preventing system from crashing. Powered by socket M Intel® Core™2 Duo processor and PCI expansion slot, the MPC170-831 is definitely the best choice for your medical panel computer.

This platform complies with UL60601-1/EN60601-1, CE, FCC Class B certifications to ensure medical operation safety. It is outfitted with 17-inch SXGA TFT LCD

display. Additionally, the MPC175-851-FL offers flexible CPU selection with socket type which reduces cost, increases convenience over onboard CPU, and still maintains a fanless operation and long product life cycle. For expansion capability, the unit supports one PCI slot for video capture card, data acquisition card and more. The built-in 1.3 mega pixels camera, microphone and stereo speakers allows medical professionals to execute remote operation. Besides, the dual Gigabit Ethernet ports provide extremely high speed of Ethernet and high reliable redundancy host connection.
