Installation of Hard Disk Drive

Step 1 Turn off the system, and unplug the power adaptor.

Step 2 Turn the system upside down to locate screws at the bottom, and then loosen all screws.

Step 3 Open the bottom cover.

※ **Put the HDD rubber on bottom cover when customer uses the 7.5 mm thick SSD.**

Step 4 Locate SSD/HDD within the red line as marked.

Step 5 Before assemble the SSD/HDD, please loosen the thumb screw to remove the HDD bracket, and then assemble the SSD/HDD with the one HDD mounting screw.

Step 6 Put the bottom cover back and fasten all the screws.

Step 7 Turn the system up and then connected the SSD/HDD directly and make sure the insertion is complete.
